TV Features: Channel Selection and On-Demand Content

U-verse TV offers a wide selection of channels, ranging from basic cable to premium movie packages. The channel lineup varies depending on your chosen package, but most plans include popular networks. One significant feature is its impressive **on-demand content library**, which allows you to watch movies and shows at your convenience. Many U-verse packages also included access to HBO, Cinemax and other premium channels, though the exact offerings varied regionally.

It's worth noting, however, that this aspect is less relevant now with many customers using mobile services as their primary means of communication.
