the existing clues with ones relevant to your new theme.

Q3: What age groups is this scavenger hunt suitable for?

A3: This depends entirely on the design of the clues and the physical demands of the hunt itself. The 2014 kit likely provided age-appropriate variations, or at least guidelines for differentiation. Carefully review any instructions provided or adapt your own plans to accommodate the age and abilities of the children.

Q4: What materials are typically included in such a kit?

A4: A typical VBS scavenger hunt kit usually includes a comprehensive guidebook with instructions and suggestions for implementation, pre-printed clues or templates for creating your own clues, and possibly additional resources like maps, decorative items, or small prizes. Q5: What if I don't have a large outdoor space for the scavenger hunt?

A5: A scavenger hunt doesn't have to be limited to outdoors! You can easily adapt it to an indoor setting, such as a church hall or gymnasium. Just adjust the clues and challenges to fit the indoor environment. Think riddles, puzzles, and tasks that can be completed indoors.

Q6: How can I make the scavenger hunt more engaging for older children?

A6: For older children, increase the complexity of the clues, incorporate puzzles or riddles that require more critical thinking, and consider adding elements of technology, such as QR codes or

online puzzles. You could also include a detective or mystery element to heighten the engagement.

Q7: What are some good prizes to offer at the end of the scavenger hunt?

A7: Prizes should be appropriate for the age group. Small toys, candy, certificates of achievement, or even small devotional items are all good options. Consider prizes that reinforce the VBS theme.
